OFFICE OF LEGISLATIVE COUNSEL

Tuesday - 14 August 1962

25X1

1. [] Dorothy Feedick telephoned indicating that the new Jackson Subcommittee was considering the possibility of the Agency assisting them as we had done on the previous Subcommittee having specific reference to two papers we produced for them relating to the policy-making machinery of the Soviet Union and Communist China. These were published without attribution and apparently both of these have been best sellers in the academic world. She indicated the new group will put more emphasis on staffing and operations and possibly such matters as training. She was wondering if there were any developments which would really warrant a revised edition. We will look into this generally and be in touch with her.

25X1

2. [] Talked with Mr. James R. Naughton, Counsel, Subcommittee on Intergovernmental Relations of House Government Operations Committee, concerning the sale of dried milk by CCC to W. Alton Jones Foundation. It was indicated that in fact all shipments did go overseas and proof of export presumably did exist and basically there was no reason why normal proof of export could not have been furnished and certainly will be available in the future. Naughton would still like a little bit more on this and efforts should be made in the meantime, however, to have CCC come up with the proof of export. We are working with NE on this.

25X1

3. [] Talked with Senator Strom Thurmond, with Harry Dent of his staff present, on [] I talked basically from the paper furnished by Colonel Grogan. Senator Thurmond listened politely but stated that he has received very good reports about [] from people whom he respects. Consequently, he would like the evidence on which we have reached our conclusions. We are looking into this further and it could prove to be a difficult case. I have mentioned this to the Director indicating we have not fully satisfied Thurmond but were going to give it another try.
